Property Review

The group walked the property, identified survey markers, discussed property line issues with neighboring property owners, discussed past, current and potential use, discussed different elevations, followed trails and looked at and inside of buildings and equipment. The group obtained permission to traverse on an adjacent property for a safer route to return to the beginning point of the walking tour, following closely along the east property line of the norther most park parcel.

The Board is encouraged to continue meeting with the group and researching appropriate steps to move toward viable and desired park uses, while seeking opportunities for fundraising, donations and grants to help fund the project.

A motion was made to adjourn by Supervisor Willenbring and seconded by Supervisor Garding at 2:08 pm.

Respectfully Submitted,

/s/Heidi M. Stalboerger, Clerk

/s/Cyril Erkens, Chairman
